Request for a grant in support of
Central Virginia Educational Television
(Channel 23); my follow-up memo dated
12-4-73

Since my follow-up memo dated December 4, 1972, I have received no response from your office. Mr. Walter L. McGhee, Public Program Director for Central Virginia Educational Television (WCVE-TV, Channel 23), has called me on the phone twice this year.

In view of the extended amount of time involved since I forwarded materials concerning the request for our participation on September 15, 1972, would you please be good enough to advise me by memo your position relative to this request?

Copies of my original letter dated September 15, 1972, and my follow-up memo dated December 4, 1972, are attached for your convenience.
